- Memorandum of Understanding (MoU) signed between Oleevia Foundation and North East Centre for Technology Application and Reach (NECTAR) under Ministry of Science and Technology, Government of India. There was an active support of Oleevia Agro Multi-State Cooperative Society represented by Mr. Saju Madhavan.
- Met Padma Shri Madam Bertha Gyndykes Dkhar, Executive Director of Bethany Society who are pioneers in upliftment and livelihood development of farmers and disabled community.

IMPORTANCE OF THIS MOU

The North-Eastern region of India consisting of states like Assam, Meghalaya, Manipur, Mizoram, Nagaland, Tripura, Arunachal Pradesh, and Sikkim, is home to diverse communities and landscapes, but it also faces unique socio-economic challenges. Recognizing the need to contribute positively to this region, the Oleevia Foundation has forged a strategic partnership with NECTAR which include collaborative initiative, technology integration and skill development.

MR. ARUN KUMAR SHARMA, DIRECTOR GENERAL NECTAR

This partnership with NECTAR is a significant step toward fulfilling our mission of creating a positive impact in underserved communities. Together, we can make a meaningful difference in the lives of people in the North-Eastern states.

Our meeting with Padma Shri madam Bertha went fruitful. We had long discussion about the present condition of farmers and farming in general in this region and how Foundation and Bethany Society can make efforts jointly to work to bring on positive impact.
