

# UNITED FOR A SHARED PURPOSE- STRATEGIC PARTNERSHIP BETWEEN ILCC AND SANJEEVINI SHG

In a significant milestone under Project Sanjeevini, a Memorandum of Understanding (MoU) was signed between the Indian Latin Catholic Council (ILCC) and the Sanjeevini Self Help Group (SHG), marking the beginning of a long-term partnership for community development. The collaboration was facilitated and executed by Oleevia Foundation, reaffirming its role as a catalyst in bringing institutions and grassroots communities together for sustainable and inclusive progress.

## Building Bridges for Sustainable Development

The partnership establishes a collaborative framework for implementing future initiatives that promote livelihood enhancement, education, health, skill development, social empowerment, and community welfare. By bringing together the experience and outreach of ILCC with the collective strength of the Sanjeevini SHG, the MoU creates new opportunities for resource sharing, knowledge exchange, and coordinated action to improve the quality of life of the Naduppathy tribal community.

## Empowering Communities Through Collaboration

The signing of the MoU symbolizes far more than a formal agreement—it represents a shared commitment to serve with compassion, dignity, and purpose. Facilitated by Oleevia Foundation, this partnership reflects the belief that lasting social transformation is achieved when civil society organizations and community institutions work together. The collaboration will encourage participatory development and strengthen local leadership.

## Creating Pathways for Future Initiatives

The agreement lays the foundation for a series of collaborative programmes including livelihood promotion, leadership development, awareness campaigns, educational support, health initiatives, youth engagement, and capacity-building activities. Through this strategic alliance, both organizations have expressed their commitment to designing impactful interventions that address the evolving needs of the community while preserving its cultural identity and promoting inclusive development.

## A Shared Vision for Lasting Impact

This partnership marks another important chapter in the journey of Project Sanjeevini and the Naduppathy Village Adoption Project. As the MoU paves the way for future collaborations, it also strengthens a shared vision of creating resilient communities built on trust, participation, and mutual respect. Oleevia Foundation remains committed to fostering meaningful partnerships.

## Program Spotlight

- Memorandum of Understanding signed between ILCC and Sanjeevini SHG
- Partnership facilitated and executed by Oleevia Foundation
- Framework established for long-term community development initiatives
- Focus on livelihood, education, health, leadership, and social empowerment
- Strengthening institutional collaboration for sustainable tribal development

## SDGs Targeted:
