

CIVIC SENSE AWARENESS SESSION CONDUCTED FOR SUMMER CAMP STUDENTS

As part of its commitment to nurturing responsible and socially conscious youth, Oleevia Foundation, in collaboration with Jnan Institute of Bharat (JIB), organized a Civic Sense Awareness Session for students attending the summer coaching camp. The session was facilitated by Shri Gautam Ramakrishnan, Chief Project Manager and Psychologist, Oleevia Foundation, and engaged 20 students in discussions on responsible citizenship, community values, and individual responsibilities towards society.

Instilling Responsible Citizenship at an Early Age

The session focused on helping students understand the importance of civic sense in everyday life. Through interactive discussions and practical examples, participants learned about public responsibility, respect for common spaces, environmental stewardship, personal discipline, and the role of citizens in maintaining a healthy and harmonious society. The program encouraged students to view civic responsibility as an essential life skill rather than merely a social obligation.

Creating Awareness Through Experiential Learning

The training adopted an engaging and participatory approach that enabled students to connect civic values with real-life situations. Topics such as cleanliness, respect for public property, responsible behaviour, empathy, social cooperation, and community participation were discussed. The session encouraged critical thinking and self-reflection, helping students recognize how small actions can contribute significantly to the well-being of their communities.

Building Foundations for Future Leaders

Beyond civic awareness, the program sought to develop essential life skills that support leadership and social responsibility. Students were encouraged to become role models within their families, schools, and neighbourhoods. By fostering a sense of ownership towards societal well-being, the initiative aimed to cultivate young individuals who are conscious of their duties and committed to creating positive social change.

Advancing the Vision of Value-Based Education

The successful conduct of the session reflects the visionary leadership of Shri Krishnakumar K. T., CMD, Oleevia Group, whose commitment to holistic community development extends beyond livelihood interventions to character building and youth empowerment. His vision emphasizes that nation-building begins with responsible citizens.

Program Spotlight

- Civic sense and responsible citizenship awareness imparted to 20 students, improving understanding of public responsibility.
- Encouraged positive behavioural change and social responsibility among youth.
- Promoted environmental consciousness and respect for public spaces.
- Strengthened collaboration between Oleevia Foundation and Jnan Institute of Bharat.

SDGs Targeted:
