

GUIDING THE GUIDES

Career Guidance Training Under Project Gyaan

Under Project Gyaan, Oleevia Foundation partnered with Jnan Institute of Bharat (JIB) to conduct a specialized Career Guidance Training program for the teachers of St. Ann's Senior Secondary School, Palakkad. This initiative focused on equipping educators with structured tools and frameworks to guide students toward informed, confident, and future-ready career decisions in an evolving global landscape.

Empowering Teachers as Career Mentors

Teachers play a pivotal role in shaping aspirations and identifying potential within students. The training enabled faculty members to better understand career mapping, aptitude identification, emerging industry trends, and student counselling approaches. By strengthening the capacity of teachers, the program ensures that career guidance becomes systematic, informed, and accessible to every student within the institution.

Bridging Dreams and Direction

In today's rapidly changing world, students often face uncertainty in choosing academic and professional pathways. Through this partnership, educators gained insights into structured counselling techniques, higher education opportunities, skill-based careers, and evolving employment landscapes. The initiative bridges the gap between student aspirations and actionable direction, fostering clarity, confidence, and long-term academic planning.

A Visionary Commitment to Holistic Education

This initiative was undertaken under the visionary guidance of Shri Krishnakumar K T, CMD, Oleevia Group, whose leadership consistently emphasizes education as the foundation of sustainable societal growth. His commitment to empowering institutions and nurturing young minds continues to inspire strategic partnerships that elevate both teaching standards and student outcomes.

Building Future-Ready Ecosystems

Project Gyaan reinforces Oleevia Foundation's belief that true educational empowerment begins by empowering educators. By investing in teacher development, the Foundation strengthens the entire learning ecosystem. This initiative marks another meaningful step toward creating informed, confident, and globally competitive youth.

Program Spotlight

- Partnership with Jnan Institute of Bharat (JIB)
- Career Guidance Training for teachers of St. Ann's School
- Capacity building in structured student counselling
- Exposure to emerging career pathways and industry trends
- Strengthening institutional academic ecosystem
